

# Full Circle

*Judy Allen - Kitchen Remodel*

Full Circle  
Project of  
the Month

After

After

Before

"Full Circle transformed our old, dark, "one butt" kitchen into a bright, open and functional kitchen. Angela understood what we wanted and was able to create the desired space. She has a particular eye to detail about how things will fit and function in the kitchen. Angela was also able to find the right products including new wood flooring to match a very old wood floor. Jim did an excellent job installing the cabinets. He inspected each cabinet closely before installation to insure the quality of the product. He also had an eye to detail and was able to make small adjustments when necessary. The quality of his work is excellent. He also

cleaned up the job site at the end of each day. Angela and Jim helped us create the kitchen we hoped for and it has transformed our open concept home.

We particularly appreciated the timely communication about the project. Phone calls and emails were promptly responded to. We felt that Full Circle explained the process and timeline so that we could be clear on our expectations. Every Full Circle employee we dealt with was friendly, helpful, professional and courteous. We would use Full Circle again on future projects and recommend Full Circle to family and friends. We are enjoying all the space and function in our new kitchen. "
