

Full Circle

Feagan Residence

Full Circle
Project of
the Month

I caretake a large home out on Mullet Lake and I asked around the Cheboygan area looking for a reputable and trustworthy contractor to allow them access to my customer's home for multiple repairs. The one name I heard over and over was Full Circle Contracting. Having worked with Full Circle on this property for a while it was easy to ask them to work on our own home projects.

So, we engaged Full Circle on our most recent project. It was primarily to redo our ceilings in our home. We went from an older drywall ceiling to a wood ceiling. We used a product referred to as end match, a knotty pine 1x6 prefinished paneling product that when put together leaves a nice groove pattern. Our ceilings look wonderful!

My wife and I found the work to be of great quality and the men who worked on our home were prompt, professional. They were great

craftsmen and very trustworthy! Since that project we have had them out to do some tile work and exhaust vent work. Since we have worked with Full Circle we have recommended them to friends and one of our friends is having a project done by them right now.
