

Full Circle

Wilson Garage, Cheboygan

Full Circle
Project of
the Month

The storms of last winter took their toll on many structures including my detached garage. A large tree fell into the center of my eave side and broke 3 trusses, sheeting, shingles soffit and fascia. I knew to contact Full Circle as they built this garage for my father back in 2001. Dan and his team of men took care of all of the debris inside and out from the tree and when the project was over, they had left the site cleaner than when

they found it

Dan was fantastic to work with and the team was great with open lines of communication and always honest. I was updated with pictures of the job and the finished results. I couldn't be more pleased. I absolutely will call on Full Circle for any future issues and always recommend them to others.
