

Full Circle

Crook Residence

Full Circle
Project of
the Month

Our largest project this summer was the conversion of an open-air deck into a screened in porch off the lakeside front of our home. Other smaller projects included entry step repair and exterior door jamb repair.

We came to Full Circle through seeing the Full Circle Panel Van from driving into town on US 23. Having a few projects in mind we stopped by and introduced ourselves and the projects we were looking at having done. In the fall of 2018, we had our first repair work done on our bathroom tile. The workmanship was excellent and so it was not hard to reach out to them again for the next work.

Shannon did the bulk of the work on the screened in porch. The work completed by him was of excellent craftsmanship. We really enjoyed his attention to detail and professional courtesy all along the way. When he left the job for the day the site was well maintained. He

began work promptly in the morning and worked continuously through quitting time. We were pleased that we got our dollars' worth of labor. As an extra bonus from time to time we got to enjoy his dog Gunner.

Overall, we are very pleased with the work and have enjoyed the new porch. The work was so well done we recommend Full Circle to any and all our friends.
