

Full Circle

Reichenberg residence - Mullett Lake, MI

**Full Circle
Project of
the Month**

Full Circle's most recent project for us was to install new pre-finished custom-color Homerwood solid cherry hardwood flooring, alternating and repeating rows of 3", 4" and 5" face exposure throughout our entire home. The product was purchased from their Home Center.

Not only did they do this project for me but they also have restored my business in town; Court Street Antiques this year. In the past they have built a house for me and a storage barn. We came to meet Full Circle through a high recommendation from Mr. Jim Conboy.

We are so pleased with the outcome of this work as in the beginning we were fearful how to tackle the job. However, because we have become so well acquainted with the level of professionalism and eye for detail from Full Circle we knew the job would be well done.

During this flooring project Full Circle's carpenters kept me well informed of the full construction process. I was made aware of time of arrivals and plan of project. When they are working they are very considerate of my property, taking shoes off when able, cleaning up every day, they don't play loud music and they were very easy for me to work around while I was doing my work. They gently moved my furniture and it was done in a way that showed concern for my com-

fort.

Tony would leave me notes at the end of the days work. Additionally, he would work with me on the placement of the flooring to achieve what I believe to be a richer character. I was glad that my opinion mattered. He really made me feel like I was a part of the project.

Most of our big projects have come to an end, however our routine maintenance of our home and business will still need to happen. We fully intend to call on the services of Full Circle again.
